

WILHELMINA IS FACING DEATH

Sudden Changes for the Worse Due to an Unexpected Event.

THERE IS NO HOPE

Whole Nation Bitter Toward Prince Consort for His Brutal Treatment.

HOLLAND STIRRED UP

London, May 5.—Conflicting reports regarding the condition of Queen Wilhelmina reached London this morning. A dispatch received at seven o'clock says that Wilhelmina is still alive but her condition is so serious that none of the physicians have any hopes. An official bulletin issued from the palace confirms the statement of a miscarriage and de-

QUEEN WILHELMINA.

clares the situation to be very unsatisfactory.

No Hopes For Her Recovery. The Hague, May 5.—Queen Wilhelmina was prematurely confined at 6 o'clock Sunday night at Het Loo and small hopes of her recovery are entertained.

Professor Rosenstein, Dr. Rossen- engh, and other doctors were in attendance. Her majesty suffered the greatest agony.

At 11 o'clock last night the condition of the queen was described as critical.

Queen Wilhelmina was married on Feb. 7, 1901, to Prince Henry of Mecklenburg and a few months after marriage met with an accident, resulting in severe illness. Her majesty recovered and was apparently well in the best of health when on April 15, this year, the announcement was made that she was ill.

Explanations of her illness were many. It was said that her majesty had typhoid fever. Another account declared that she had peritonitis.

Hate the Prince Consort

Already there is a wrathful clamor abroad concerning Prince Henry, the prince consort. He is blamed for the crisis in which the young queen is placed and again the newspapers are preparing to revive the stories of his brutality toward his royal wife. It is well known that within a few months after her marriage Queen Wilhelmina was practically discarded by the young German to whom she had given her love and her hand in marriage. The Duke of Mecklenburg-Schwerin no sooner became a royal husband than he began to spend money lavishly and to enter upon a career involving various excesses, among them wine drinking and hunting expeditions, in which he was joined by many boon companions.

Worship Their Girl Queen

All Holland will mourn doubly when

NEW STEERABLE AIRSHIP GIVEN A FAIR TRIAL IN PARIS YESTERDAY

The Machine is Larger Than Dumont's—Inventor Guides It in All Directions at Will, and Lands Safely—Longer Flight in View.

Paris, May 5.—In spite of the threatening weather Senor Augusto Severo, the Brazilian aeronaut, made a successful first trial with his airship at the Vaugrassat Aerostatic Park yesterday. Senor Severo's airship is called La Paix.

The balloon, held by a rope, ascended forty meters. The motors were then started. The balloon obeyed the impulse of its motors, steering easily and maintaining perfect equilibrium. After maneuvering for a short time Senor Severo safely returned the airship to its shed. The few persons who were present at the park enthusiastically applauded Senor Severo and the two assistants who accompanied him in the ascent.

La Paix is not unlike Santos Dumont's airships in appearance, but it differs from them in many details. The gas capacity of La Paix is nearly four times greater than that of Santos Dumont's airships. It has three main

propellers and two smaller ones, used for steering and in ascending and descending. The two petroleum motors of La Paix are of twenty-four and sixteen horse power, respectively.

Senor Severo said that he would not make another trial until there was perfectly fair weather, and that that he would then attempt to extend his flight.

Edison's Advice to Dumont. New York, May 5.—Thomas A. Edison believes that mankind ought to be ashamed of itself because the problem of aerial navigation was not solved years ago. He also makes the statement that, while Santos Dumont has done a great thing in steering airships about through the air it will be a long time before any contrivance for air navigation is commercially possible, because no inventor will be able to secure any reward for his labor in this line of work under the present patent laws.

RAINS IMPROVE CROP PROSPECTS

Small Grains of All Kinds Are Especially Promising—Tobacco Plants Are in Fine Shape.

Rarely, if ever before, has there been a better prospect for crops of all kinds in Rock county the first week in May than at the present time. The frequent rains during the past ten days, followed as they were by spells of genial sunshine, have caused the farms of the county to give promise of bountiful crops of all kinds this season.

Small grains of all kinds are especially promising. Rye has made a very heavy and early growth. Barley is well above the ground, looking healthy and even in growth. Oats have come up nicely and give promise of a bountiful yield.

The meadows have awakened from the lethargy of winter and are now giving evidence of a good hay crop, much to the satisfaction of the farmers, many of whom had begun to feel somewhat dubious two weeks ago. Pastures about the country are beginning to furnish food for the thousands of hungry cattle and young stock, who have been living on scanty rations during the past winter.

Apple and other fruit trees are heavily laden with blossoms, foreboding a generous crop of the larger fruits. Some of the trees are not in a very healthy condition, but recent favorable weather has improved the outlook greatly.

Tobacco plants are now growing rapidly, owing to the recent rains and in most cases are numerous and healthy. In a few instances farmers complain that their tobacco seed did not come well.

Farmers are now preparing for corn planting and planning some for tobacco. They go about their work with light hearts and an air of satisfaction that gives an indication of the hopeful feeling that the present season will be a good one for them.

WRECK ON THE ALTON ROAD

Engines Overturned and Baggage and Smoking Cars Demolished.

Joliet, Ill., May 5.—The Chicago-Springfield passenger train on the Alton road was wrecked near here while passing through the steel mill yards at the rate of thirty-five miles an hour, the locomotive striking a switch engine running onto the main track from a siding. The shock was terrific, both engines being overturned and the baggage and smoking cars demolished. The other coaches, containing 150 passengers, remained on the tracks. Escaping steam enveloped the train, and for a time there was a panic. Robert H. Wilson of Quincy was the only passenger hurt.

Will K. Davis, publisher of the Edgerton Eagle was a business caller in our city today.

BLOW FOR PRIMARY ELECTION LAW; ITS ABUSES IN SOUTH CAROLINA

Senator McLaurin Says It Throttles Free Speech—System Is Unpatriotic and Useless, and Should Be Abolished—A Political Machine.

Washington, D. C., May 5.—Senator John L. McLaurin of South Carolina has issued a statement under date of May 3, in which he practically announces his breaking with the Democratic party. As a cause for his action he ascribes the abuses permitted under the South Carolina primary election system. He says that his first break with his party was on the tariff question, and tells of the history of the Tillman-McLaurin fight. He speaks of the primary election system of his state as follows:

"The primary system adopted in our state through the farmers' movement has been prostituted and perverted into a political machine for the purpose of excluding all candidates who are not in full accord with the views and wishes of the dictator. The vital question is, therefore, will the people of the state submit to this political tyranny and join in this unholy and unpatriotic work of disfranchising the intelligent people and excluding them from our elections?"

"With such a system I have no sympathy and feel impelled to warn the people against such tyranny as it encourages and establishes. With these facts before me and my convictions as to the original purpose of the primary system, I am driven to the conclusion that it has subverted its purposes and has outlived its usefulness."

STOCK BARN NEAR LIMA CENTER BURNS

Struck by Lightning Saturday Night—Loss from \$1,500 to \$2,000—Three Calves Burned.

Lima Center, May 5.—The large stock barn on the farm of W. J. McCord, about two miles north of this village was struck by lightning Saturday night about 12 o'clock and completely destroyed. The stock, consisting of some sixteen head of cattle and five head of horses, were rescued, but three calves were burned with the building. A small amount of hay and grain were also lost. An insurance of \$800 was carried on the structure. The building was valued at from \$1,500 to \$2,000.

DISMISS TWO FROM HOSPITAL

Sequel to Death from Scalding of Infants Patient at Jacksonville.

Jacksonville, Ill., May 5.—The dismissal of two attendants from the Central Insane Hospital is regarded as a sequel to the case of Watkins, one of the patients, who was scalded to death in a bathtub. Though the coroner's jury did not censure anyone connected with the affair, it is generally conceded that the demise of the patient was partly due to carelessness on the part of asylum employees.

Iowa War Claims.

Des Moines, May 5.—The comptroller of the treasury has decided that Iowa is entitled to \$456,417.83 on account of expenditures incurred during the civil war in equipping troops for the government. The treasury has recommended the allowance of the Iowa claim. It is now up in congress. If the claims of this state were put on the same basis as those of other states which have gained refunds through the court of claims, she would still be entitled to \$229,699.62.

SPARKS FROM THE WIRES

Buffalo, May 5.—Fire which destroyed the Wells elevator at midnight will probably cause the death of Fireman Kennel caught by the falling walls. The loss is half a million.

New York, May 5.—Though not out of danger Archbishop Corrigan is slowly rallying.

Los Angeles, May 5.—The business session of the general federation of women was held this morning. Mrs. Mary Lockwood reading the report of the committee on re-incorporation. The board of directors did not take the color question from the table.

New York, May 5.—The announcement of three failures on the exchange this morning caused an excessive liquidation of stocks. Offenbach & Moore, brokers for the Webb-Meyer Syndicate; Henry Bros. Co., and Lockwood, Hurd & Co., are the firms involved.

New York, May 5.—John Lynch, 18, and Emma Boltza, 20, were burned to death in a fire in the works of the Eureka Bedding Co. this morning. Six others were injured, one of whom was Ethel McGrath, who will die.

Fort Wayne, Ind., May 5.—Wm. Rabie, who fatally shot his wife, Addie, Saturday night, was found dead in his jail cell this morning by hanging. Jealously caused the tragedy.

Syracuse, N. Y., May 5.—Because she refused to live with him Miles Brown this morning fatally shot his wife and himself.

Chicago, May 5.—Howard Hill, colored, quarreled with Mollie Moser and she told him to leave the house. He came back, fatally shot the woman, took carbolic acid and died on the street.

Chicago, May 5.—The beef agitation had its effect in the stock yards receipt today falling from the usual twenty-five thousand to ten. Retail prices will be changed.

ness. It is, therefore, a matter of no concern to me what may be the action as to the rules of the primary and a revision of its pledges.

"The suppression of independence of action in voting by such means renders it impossible for any self-respecting citizen holding my views to become a candidate in the Democratic primary in South Carolina. It is apparent that the system has been warped and twisted so as to serve the one purpose of throttling free speech, free thought and free liberty of action. The primary system in South Carolina has been sacrificed upon the altar of partisanship and personal malignity, and has therefore become unpatriotic and useless and should be ignored and finally repudiated by our people, with a purpose similar to my own, to look hopefully to the results of a fair and just general election under our state and national laws."

"A party yoke has been placed upon our people and it has become too galling for further endurance, and yet I realize that many of my loyal friends would even once more hold in check their resolution not to again enter our system of primary election in order to again vote for me, but I have reached the point where I will not subject them to subscribing a vote which does not represent their views upon the issues facing the American people today."

MAY TURN TABLES ON BELOIT TEAM

Base Ball Game Between Madison and Line City on Wednesday, Promises Brilliant Contest.

Madison, Wis., May 5.—Coach Oscar J. Bandelin, of the university of Wisconsin baseball team said last night that he was morally certain, his boys would turn the tables on Beloit in the game to be played here Wednesday. Two weeks ago the Badgers met the Congregationalists on the home grounds of the latter and were defeated by the score of 7 to 1. The Wisconsin squad returned to Madison telling a hard luck story and blaming for the defeat wind, weather and almost everything but the pitching of Adkins and the errors of the Cardinal men.

"The coming game is arousing great interest here on account of the traditional rivalry between Beloit and Wisconsin and because of the brilliant record made by the Badgers on the recent trip upon which Chicago, Illinois, Notre Dame and Northwestern were defeated. Games with Beloit this year count in the championship figuring because the Line City college has within the year adopted conference rules as to professionalism. It begins to look as though the pennant lay between Wisconsin and Beloit and the game Wednesday will have much to do with the determination of this question."

PHILLIPS' PLAN TO RULE GRAIN TRADE

Control of the Entire Market in America Sought—Seeks Financial Aid in East.

Syracuse, N. Y., May 5.—George H. Phillips, of Chicago, the former corn king, spent yesterday and today in this city interesting capitalists in a scheme to control the American grain market. The day before he was in Buffalo, where he joined the board of trade, and conferred with men of money on the same subject.

Phillips met John Dunfee, the Syracuse millionaire contractor, who controls more ready cash than any other man in Central New York. This meeting was arranged by telegraph. Today several other wealthy men called on Phillips at the Yates hotel. Tonight he left for New York, where tomorrow he expects to see representatives of the Elkins-Widener-Brady syndicate, of which Dunfee is a prominent member, at the Waldorf-Astoria.

In connection with his plan of a great grain pool, Phillips is planning the establishment of the biggest grain brokerage house in the world, with headquarters in Chicago, and Eastern branches at Cleveland, Pittsburg, Philadelphia, Buffalo, Rochester, Syracuse, Albany and New York. The first place they will open is at Buffalo.

SEES WIFE AND CHILD DROWN

Man Rescues Young Woman, Relieving Her to Be His Spouse.

West Newton, Pa., May 5.—A skiff containing four grown people and a child was overturned in the Youghiogheny river and two were drowned. Mrs. Frederick Landsperger and her son, 4 years old, were the victims.

Besides Mr. and Mrs. Landsperger and the child, Miss Maggie Herrington and Fred Bendig were in the boat. Landsperger helped Miss Herrington to shore, supposing she was his wife.

When he heard his wife and child crying for help he returned to the water only to see them sink.

Wilson Lane returned home yesterday from a month's business trip through northern and western Missouri and southern Iowa.

POTTER PALMER, NOTED HOST, DEAD

Unexpected Death Is Due to a Cold Contracted Three Weeks Ago—Left \$10,000,000.

Chicago, May 5.—Potter Palmer, one of the upbuilders of Chicago, died unexpectedly at his Lake Shore drive residence at 5:30 o'clock yesterday afternoon. The illness which terminated suddenly and fatally began in a cold three weeks ago. His condition was not considered alarming until three hours before the end came.

When Mr. Palmer passed away his wife, two sons—Potter Palmer, Jr., and Honore Palmer—and other members of the family were gathered at his bedside. After the first attack, however, Mr. Palmer did not regain consciousness. Edema of the lungs, his physicians said, was the immediate cause of death.

As owner of the Palmer House Mr. Palmer's name was widely known before his wealth placed him in the first rank of Chicago's citizens. His fortune is estimated at \$10,000,000, invested almost entirely in Chicago real estate, in which he has always been a firm believer.

RICHARD J. WHITE MADE PRESIDENT

State T. P. A. Convention Chooses Him for President, and Select Sheboygan for Next Meeting.

Racine, Wis., May 5.—The annual convention of the Wisconsin division of the Travelers' Protective association came to a close shortly before 1 o'clock at noon Saturday, after officers had been elected and delegates chosen for the national convention at Portland, Ore.

At the morning session it was decided to hold the next convention of the state division at Sheboygan.

Following is a list of the officers elected for the ensuing year:

President—Richard J. White, Milwaukee.

First Vice President—H. J. Schuller, Waukegan.

Second Vice President—H. Cheselborow, Sheboygan.

Third Vice President—James McShane, Oshkosh.

Secretary-Treasurer—H. C. F. Schroeder, Milwaukee.

CYCLONES DESTROY MUCH IOWA PROPERTY

Terrible Storm Rains Crops and Levels Houses and Windmills in the Affected State.

Omaha, May 5.—A cyclone passed over Iowa about 4 o'clock Saturday afternoon from northwest to southeast. In several places it dropped low enough to destroy farmhouses, barns, windmills and early crops.

The telephone and telegraph wires are down in the districts affected. The territory in the vicinity of Sheldon suffered greatly. At Webster City it passed west and south for a distance of about fifteen miles, carrying with it all houses and barns, except where the storm rose above the earth.

Much live stock is reported killed in this vicinity, and it is feared that later reports will show many persons killed and injured.

The path of the storm led up to the village of Brushy, where it rose suddenly and lowered again after the village was passed. It passed over Jackson township, five miles north of Eldora, demolishing farmhouses, barns and windmills.

The new farmhouse of James B. Starr was leveled to the ground. Fairfax schoolhouse was blown away and Starr's hired man is reported missing. Rural telephone wires are torn down, and it is not known how serious the damages may be.

The many friends of George Mosely, formerly of this city, will be pained to learn that as home in St. Louis Park, Minneapolis, was recently destroyed by fire. His mother Mrs. C. E. Mosely, has lately returned from a visit with him.

PLANS FOR A GIANT BANK COMBINE; BANKERS APPROVE THE SCHEME

Financiers Comment on the Suggestion to Unite Five Big National Banks with the Chicago First National and Sixty Illinois Institutions.

Chicago, May 5.—President James B. Forgan's proposals for a combination between the First National Banks of Chicago, Milwaukee, St. Paul, Minneapolis, Omaha, and Kansas City with sixty Illinois banks, under a law permitting the branch banking system, is received with diverging views in the cities named. For the most part bankers in Milwaukee and Minneapolis who have expressed their views favor the plan on general lines, although a number of them raise objection and others doubt whether the proposal would meet with general public approval.

Milwaukee, Wis., May 5.—Milwaukee bankers favor in a general way branch banking as advocated by James B. Forgan, President of the First National bank of Chicago in his address before the Bankers' club.

"I believe Mr. Forgan is practically right," said F. G. Biglow, President of the First National Bank. The adoption of the branch bank system

GREAT STRIKE IS LOOMING UP

War Between Labor and Capital in the Anthracite Regions.

UNIONISM IS ISSUE

Chairman Hanna Says the Attitude of the Men is Little Short of Criminal.

CONFLICT IS CERTAIN

New York, May 5.—President Mitchell of the Miners' union said today that the situation in the anthracite field depended entirely upon the meeting Wednesday. The Miners' executive committee at Scranton were asked if this was a favorable time to strike said that any time was favorable when the right and justice was on the men's side.

Washington, D. C., May 5.—One of the greatest labor strikes in the history of the United States is now threatened. If it takes place something like 130,000 or 140,000 men will leave the anthracite coal mines in Pennsylvania. This great calamity is threatened because the mine owners refuse to recognize the labor unions or their employees. They still insist that they will deal only with individuals.

Senator Hanna is very much perturbed over the situation. He spoke in terms of indignation, almost anger, of the attitude of the operators. He said that they had even refused to recognize the Civic Federation. In a manner that would enable that organization to bring about peace.

Although Senator Hanna was not speaking for publication, as he is extremely careful in such matters, he intimated to his friends that in his judgment the attitude of the operators was little short of criminal. He says the day is past when any employers can honorably refuse to deal with the representatives of their employees, whether organized in a union or not. Capital claims the right to organize, to combine, labor has the same right. Any assertion to the contrary belongs to a past age and is barbaric.

In this sense the owners of mines and other property have a right to do what they like with their own. In Senator Hanna's opinion. They owe an obligation to society, in general. When Mr. Hanna left here yesterday he was much discouraged over the outlook and feared that a great strike was impending.

The operators in the anthracite coal region have persistently refused to recognize the union. During the strike of 1900 they maintained this attitude, despite all the pressure brought to bear upon them. In the end they made some concessions as to wages and conditions but they did not recognize the union. President Mitchell of the National Coal Miners' Union won but an incomplete victory on that occasion. He secured better terms of the men, but he did not gain formal recognition of his organization.

He surrendered the latter partly because he is a conservative leader and did not wish to plunge the anthracite region into the horrors of a protracted struggle, and partly because he wished to strengthen his lines before bringing the issue to a final test. At that time a considerable share of the miners were not organized, and before venturing on their feet but Mr. Mitchell wanted a united as well as an organized army behind him. This, it is claimed, he now has. Virtually all the miners in the anthracite field are in the union.

If the operators do not relent between now and Wednesday, it is said to be President Mitchell's intention to submit the case to the representatives of the local unions at Scranton and under the prevailing conditions a vote to strike is considered probable.

WEAKNESS IN STEVENS MEASURE; PRIMARY BILL FAVORS MACHINE

Senator Whitehead Says It is a Pull for the Men in Power—Nomination by Petition Does Not Insure a Direct Vote.

In his third letter to the Sentinel, printed below, State Senator Whitehead continues his analysis of the Stevens Primary Election bill, and as he develops the subject he brings out points that have not previously been considered. It has been repeatedly stated that he attempted to put into practice the plan to nominate candidates by a direct vote of the people would inevitably result in the disorganization of the party and the elevation of the personal machine. Mr. Whitehead explains in detail how this result would be brought about.

Whitehead has conclusively shown that the Stevens bill was not in accordance with the platform pledge of the last republican state convention; he has shown that, had it become a law, it would have been unconstitutional and void; he has demonstrated that it would have enthroned the political machine and led to the decadence of the party organization.

Would Strengthen a Machine. In the letter which is printed below the point calculated to appeal most directly to the voters is the one relating to the strength which would be exercised by the officeholder, who could use the machinery furnished him by the co-operation of his subordinates to perpetuate himself in power. The member of congress would have a postmaster in every city and village to circulate his nomination papers and secure votes at the primary. The state administration, with its army of employees could overrun the state with its petitions. As it would not require a majority of the members of a party to nominate a candidate, the organization of officeholders would be potent enough to overcome the efforts of any private individual who might aspire to office.

Whitehead's Third Letter. Janesville, Wis., May 2, 1902. To the Sentinel: Many and serious were the charges made last winter against the "machine" during the arguments on the "Stevens Bill" before the joint committees of the two houses of the legislature, and, as I recall the discussion, I am led to refer to what the platform said about every voter, in making nominations, exercising "his sovereign right of choice by direct vote without the intervention or interference of any political agency," and to set over against this convention declaration the provisions found in Section 5 of the Stevens Bill, relating to the method to be pursued by the candidate in order to secure a nomination and to have his name as a nominee printed upon the primary election ballot.

A nomination paper was to be prepared and circulated. It was to be signed by at least two per cent. of the voters of the party named and proposed to be represented therein resident in the state or political subdivision, as the case might be, in which such person was proposed as a candidate. If one were a candidate for a state office, his nomination papers were to bear the signatures of two per cent of the electors of the party, residing in at least 12 counties of the state. (There are 12 counties in the State of Wisconsin at the present time. It might be necessary to present the petition in 50 of the counties.) If a man were a candidate for Congress, he would be required, under the bill, to obtain signatures of two per cent. of the voters of his party in one-fifth of the election precincts in one-half of the counties in his congressional district.

In the case of a candidate for the State Senate or the Assembly, the candidate would have to circulate his petition in one-fifth of the election precincts in his district.

How were petitions to be circulated? The interest of someone in the welfare of a candidate whose name the petition bore, must have been enlisted preparatory to his campaign for a nomination. It would seem as if there were first of all a necessity that the candidate, at least in a district larger than Assembly or Senate should procure agents to take charge of circulating his petitions. If he were a state officer, seeking a reelection, he might have a sufficient number of well-known known state employees distributed throughout the required number of counties, who would attend to the circulation of the petitions; but, if he were, for the first time, a candidate for a state office, his personal acquaintance might be comparatively limited, and he would have to seek out and interest in his cause, a number of persons in the different counties to be canvassed.

The Congressional candidate, if an incumbent of office, would, more likely find his machine made to order and ready to set in operation then would the state candidate, for the postmasters in every community in his district would probably have been the recipients of his favors, and they would be presumed to be ready to show appreciation of his favors in the circulation of his petitions and doing his advertising. One Congressman in this state was reported to have said, during the consideration of the bill in the legislature, that, if the

bill became a law, he would be able to hold his office indefinitely, without any personal effort in his district.

In plain speech, the first requisite to securing a nomination under the bill would be to provide for the co-operation of a sufficient number of men, managed by a central power, from which all orders would emanate, who would present the candidate's claims in a way to secure signatures to his petitions and votes for him at the primary election. This procedure supplies all the elements of a "machine" as defined in the discussions before the legislature.

According to the orators to whom we have listened, we have been working so long under party regulations so very bad, that disinterested political service is an unknown quantity, if not an impossibility. The men who would be found willing to circulate these petitions as a matter of public duty would be no more numerous just after than just before we could raise up a new generation we should have to be content with our present resources in the way of political workers. Some sort of compensation would be pre-requisite to the performance of their services. Either the candidate would have to possess enough money, or be willing and able to make the promise of office sufficiently alluring to enlist men who know how to circulate petitions and advertise a candidate so as to get votes.

The orator from whom we have already quoted said: "The friends of the measure stand squarely upon this proposition, that wherever we can obtain a direct expression of the people's will, it should be done."

The constant talk was about the platform demand that the nomination should be the result of a direct vote, but the bill provided for the intervention of this elaborate petition business, the interference of petition made nominations with the voter's right to express his own choice. The elector was to go alone into a booth with his printed ticket in his hands, but evidently he was not expected "to exercise his sovereign right of choice by direct vote" after all, for, quite likely, he had neither seen nor signed one of the petitions circulated for any candidate whose name was printed on his ballot. To be sure, he need select, none of the "printed names; he had the sovereign right of inserting another name in the blank place provided therefor upon the ballot, but it was planned that he should, was it expected that he would? The petition scheme, notwithstanding the platform, was justified upon the ground that it was a proper measure in order to keep the number of names printed upon the ballot, that is, the number of nominees, within reasonable limits.

The voter had long had the opportunity, at an election called general, and now he was to have an additional chance at an election called primary, to express a choice between candidates whose names were printed on the ballot handed to him at the polls. In the old case, the names printed upon the ballot were of delegate named candidates. What difference in principles lies between candidates named one way or the other, so far as the voter's exercise his sovereign right of choice by direct vote in making nominations for office is concerned, I do not know how such a plan can be looked upon as not of the machine order, as essential to the unity, symmetry, and effectiveness of a bill which was claimed to be anti-machine, to be a fulfillment of a platform pledge, that the voter was entitled to the opportunity "to exercise his sovereign right of choice by direct vote without the interference or intervention of any political agency," I am unable to decide.

A great scheme this—assisting the voter to exercise his sovereign right of choice by direct vote—shutting him up in a booth by himself, with a ballot containing the printed names of candidates suggested by petitioners, in order that he might select therefrom a candidate of his own, without the intervention or interference of any political agency.

The proposition was to fix arbitrarily the required percentage of voters, who should sign the petition before it could be filed, printed ballots containing the names of such nominees, and to conduct an election at public expense, and all that we might have, as their leading champion admitted in his opening sentences—"A revolution in this state in methods of nominating candidates for public offices," without sufficient warrant in experience for the "revolution."

As to the policy of this provision, from a party standpoint, it seems to me wholly unjustifiable and destructive. Instead of party action, this bill suggests that we substitute the action of individuals, the political machinery to be employed by them to be wholly under their control, with in their own knowledge, and managed exclusively for their own interests; instead of party oversight, that we enter upon a period of personal intrigue, or personal schemes and personal self-seeking.

I deem the whole plan out of keeping with the political system which has grown up under our Constitution. The constitution provides that they shall be elected by the qualified electors of the state, circuit judges by the qualified electors of the circuit, members of the senate and assembly by qualified electors of the circuit, member, and so through the list, officers are elected by the voters within the proper jurisdiction. That officers can be elected by a part of the electors in a part of the state or district was not adopted as our system. The attempt should not be that nominations for office may be made by a percentage of voters in a fraction of the voting districts concerned. The bill, with the provisions of

section 5 included, was neither the performance of a party pledge, nor in keeping with our constitutional methods, nor wholesome from the standpoint of those who believe in political parties.

JOHN M. WHITEHEAD.
Brings attractiveness to listless, unlovable girls, making them handsome, marriageable women. That's what Rocky Mountain Tea will do. 35c. Smith's Pharmacy.

TO IMPROVE THE COUNTRY ROADS

Janesville Inventor Makes a Good Suggestion to Madison Forty Thousand Club.

In some remarks about the object and aim of the Madison Forty Thousand club Dr. Gaper furnishes the following sample letter of the many communications which come to the club:

"Janesville, Wis., April 24.—President Forty Thousand Club: The writer is the inventor and patentee of a wheel, track and ballast block for country roads and its material will be composed of vitrified clay, manufactured upon an aryan brick machine with its parts interlocking, dispensing with bolts, etc. The material will be laid upon a graded earth road bed and its maximum cost will not exceed \$2,000 per mile. The track principle having solved the problem of land transportation, it would be the part of wisdom to incorporate the same in the improvement of country roads. Macadamizing is too expensive except in dissolving populated districts, and the only solution to the question, how to make the country roads a possibility will be formed by the adoption of the track. A track economizes material and labor, the two great factors in road building. This method is adapted to all kinds of vehicles and by capping the flange with sheet steel will answer for an electric car track.

The inventor is financially embarrassed and is obliged to offer concessions to those who will interest themselves in demonstrating its claims to practical use. A sum of \$500 would enable the owner to make and lay a section of track which would enable the owner to make and lay a section of track which would amply demonstrate its adaptability and furnish an object lesson of great value to all friends of good roads. I can furnish a mechanical drawing for your inspection and if the club is willing to make this venture I will donate them the exclusive right of Dane county in connection with the expenditure of the \$500. Good roads and plenty of them will advance the prosperity and happiness of a people more rapidly than any other improvement.

Yours truly, O. L. DeForest.

MANY WILLING TO GO TO CONGRESS

Cooper Seems to Have a Clear Field in the First District—Outlook in Other Districts.

The conventions for the First, Fourth, Fifth, Seventh and Eleventh congressional districts have been called, and the candidates for positions on the congressional ticket will soon become active. According to Washington reports, Congressman Minor of the Tenth district and Dahle of the Second are on their way home to look after their fences. Congressman Davidson put in considerable time in the state. Other members will run out occasionally between this and convention time.

In the First district the convention is called to meet at Janesville on May 27. There is not at present any opposition to the renomination of Congressman Cooper. If there are any other aspirants for the place they have so far failed to announce their candidacy.

As the LaFollette machine controls the calling of the convention in the Second district, it is not likely the convention will be held until after the state convention is called and the political matters pertaining to it have been disposed of. In that district, judging from the present situation, the preliminary skirmish for delegates now going on will develop into a long drawn out contest. It will be a battle royal between political generals who have been known in the field of Wisconsin politics for many years.

It fills the arteries with rich, red blood, makes new flesh, makes sick people well. That's what Rocky Mountain Tea will do. 35c. Smith's Pharmacy.

AMUSEMENT NOTES.

Rose Coghlan will produce "Forget Me Not" at the Myers Grand on May 16, supported by a special selected company, among who are some who appeared in the elaborate production of this play at the Fifth Avenue Theatre, New York. In the leading role this brilliant epigrammatic satire on modern society, Rose Coghlan is doing the most artistic work of her career and a record breaking business. Everywhere "Forget Me Not" has been presented. It has received with generous approval numerous calls, and the critics have been lavish in the characterization of Rose Coghlan, who is conceded to be America's greatest actress in roles of this nature.

A Correct Idea of Osteopathy. If you wish to get a knowledge of osteopathy, read an explanation of it by an osteopathic physician, not some one who is not a practitioner. If you want an opinion of it, take that of a patient who has given it a sufficient trial under a representative practitioner. It is unjust to judge a new system by what those who are wholly ignorant of it may say. The better plan is to look into the new practice first-hand.

CHANGES ON THE MILWAUKEE ROAD

E. D. Sewall Becomes Assistant Superintendent—Will Succeed C. A. Cosgrove at Minneapolis.

E. D. Sewall will become assistant general superintendent of the Milwaukee road with headquarters at Minneapolis, succeeding C. A. Cosgrove, whose resignation was filed several weeks ago. Mr. Sewall will be in charge of the operating department of the northern district.

J. T. Conley, now assistant general passenger agent at St. Paul will become assistant general freight agent with headquarters at Minneapolis, in charge of the freight traffic in the territory heretofore reporting to the general northwestern agent's office, which includes the Twin cities, the Iowa and Minnesota, Hastings and Dakota, and James River divisions; also the territory north and west of these lines, including Missouri and Kansas, Montana.

Mr. Sewall's early railroad experience was in the civil engineering departments of the Northern Pacific, Canada Southern, St. Paul, Minneapolis and Manitoba (now Great Northern), and St. Paul and Duluth companies. He entered the service of the Milwaukee in September, 1882.

Mr. Conley's first service with the Milwaukee was at La Crosse. He was appointed assistant general passenger agent at St. Paul in 1892, and he has also been commercial agent at St. Paul since 1895. F. E. Otis entered the service of the Milwaukee road in December, 1889. C. L. Kennedy has been with the Milwaukee road for twelve years.

The successor to Mr. Conley, as assistant general passenger agent at St. Paul has not been announced.

WHITE PINE PRICES ARE ON THE BOOM

Shortage in the Production During April as Compared with a Year Ago, the Cause of It

Due to the shortage in production of white pine during April, as compared with a year ago, the price situation is firming up again, and advances in the near future are the most likely to occur.

These advances will probably apply to the better grades of select and finish lumber, which are in very short supply and for which there is a pronounced demand at this time. In other descriptions of good lumber there may be also nominal advances soon after the turn of the month, and values are decidedly firm at this writing as a consequence. Very little new dry lumber is coming on to the market yet, and this is eagerly purchased when it can be obtained. Recent rains in the agricultural sections have stimulated demand and retailers report a large volume of business.

Rains the latter part of last week through and early this week were beneficial to raising the stage of water in the river, conditions will be very satisfactory during the June floods, but without heavy rains there is certain to be more or less interruption to sawing the early part of the season. A considerable rise is necessary to secure a good stage of water for driving purposes, and until this is obtained there will be more or less trouble in bringing down logs to the mills. At present very little work has been done on the upper river owing to the low stage of water this spring.

Karl's Clover Root Tea corrects the Stomach

SILENCE!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indecent. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of free consultation by letter. All correspondence is held as strictly private and is handled in a confidential manner. Address Doctor R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

"Having used Dr. Pierce's Favorite Prescription and Golden Medical Discovery during the past year, I feel that I can truthfully recommend these medicines for all female weaknesses. I have used several bottles of 'Favorite Prescription,' which I consider a great blessing to weak women. I was so nervous and discouraged that I hardly knew what to do. Your kind advice for home treatment helped me wonderfully. Thanks to Dr. Pierce."

Biliousness is cured by the use of Dr. Pierce's Pleasant Pellets.

BEST FOR THE BOWELS

If you haven't a regular, healthy movement of the bowels every day, you're lit or will be. Keep your bowels open and you'll be well. Force is the sign of a laxative, and it's dangerous. The stomach, intestines, and bowels are the most delicate organs in the body and need the most careful treatment.

KEEP YOUR BLOOD CLEAN

FOR YOUR WELFARE

You Are Urged to Make Health Building Your First Work This Month.

PAINE'S CELERY COMPOUND

Puts You in Condition to Withstand The Enervating Effects of a Hot Summer

If you are ailing, sick, or diseased, it is your earnest desire to interest you in your own personal welfare. We try to do this by simply urging you to make health building our first work this month, as efforts to banish disease are much more difficult when in addition to physical sufferings, you are obliged to contend with the enervating effects of a hot summer. Medical men know well that a sick person when treated with the proper medicine in May, has a much better chance for life and health than is possible in July or August.

The incalculable amount of good that Paine's Celery Compound is now doing in making sick people well, should compel the attention of every thinking man and woman now in sickness and suffering.

Faulty nutrition of the nervous system is the direct cause of nervous debility, headaches, dyspepsia, and neuralgia—ailments that thousands are now suffering from. When people have blood that is pale, watery, and full of impurities, their nerves cannot assimilate food properly and derive nourishment from it.

Paine's Celery Compound used in May cleanses the blood, bestows greater nerve force, regulates the stomach and bowels, arouses a healthy appetite and brings about a normal action of the dormant liver. Paine's Celery Compound in every case gives a positive and permanent cure. It is the most thoroughly honest medicine that run down and sickly men and women can employ. Its life giving effects on nerves and blood is truly marvelous.

Save Money by dyeing your faded garments with Diamond Dyes. 10c.

Kansas Drought is Broken.

Wichita, Kan., May 5.—The drought is broken here. Heavy rain fell, accompanied by a fearful electrical storm. It is doubtless general, as wire communications are badly crippled for more than 100 miles south. The importance of rain here is shown by the fact that 40,000,000 bushels of wheat was produced within a radius of forty miles of Wichita last year.

To Inspect American Dock.

Berlin, May 5.—Emperor William has ordered Naval Architect Fritz to proceed to the United States to inspect the dockyards and engineering establishments at New York and Philadelphia.

FIERCE BATTLE WITH THE MOROS

American Troops Capture a Fort After Desperate Fight with Fanatics.

RAISE FLAG OF THE PROPHET

Only After a Hand-to-Hand Encounter Do the United States Soldiers Succeed in Storming the Fortifications and See Victory Perch on Their Banners.

Manila, May 5.—Col. Frank D. Baldwin, with the Twenty-fifth Battery and seven companies of the Twenty-seventh Infantry, attacked and captured the Moro fort at Bayan, island of Mindanao, after a desperate engagement in which one American officer and seven enlisted men were killed and four officers and thirty-seven men wounded.

The American loss was eight killed forty-one wounded. The Moros lost more than 200 killed and at the end of the battle the survivors, eighty-four in number, surrendered unconditionally. Of the Americans Lieut. Bovars was killed and Capt. Moore, Lieut. Jossman and Surgeon Major Porter were wounded.

The principal Moro leaders were killed, including the Sultan of Bayan, Raja Muda of Bayan, the Sultan of Pandan Patan and many of the leading datus.

The capture of the fort and the surrender of the surviving members is a severe blow to the Moro rebellion against American sovereignty in the most savage part of Mindanao, although the military authorities realize that the cooperation of the sultans and chiefs is general when the flag of the prophet is raised in a jihad or holy war.

The battle was a hand-to-hand one. The fort was defended by fully 300 men and was surrounded by four trenches.

The mountain guns fired 120 rounds at a range of 1,400 yards, but the Moro fortifications withstood the bombardment and Col. Baldwin ordered the infantrymen to take the fort by storm.

The Americans were compelled to work their way forward through successive entanglements of grasses and took the successive trenches after hand-to-hand encounters. The Moros fought furiously. After exhausting their ammunition they resorted to krisses, barongs and kamplangs. Several wounded Moros who were hidden in the high grass attacked the members of the hospital corps, who were seeking the wounded to succor them.

Nuggets of Pure Gold.
Carson, Nev., May 5.—One of the richest bonanza strikes in the history of the state was made in the Silver Peak mines. Large nuggets of pure gold have been found and the whole face of the drift is said to run \$400 or \$500 a ton. It is said that over \$100,000 was taken out in a few hours the first day of the strike.

Fire Destroys Buffalo Elevator.
Buffalo, N. Y., May 5.—The Wells elevator, situated on the Buffalo river at the foot of Indiana street, was destroyed by fire. A large quantity of grain had been placed in the elevator during the past week, and the loss on the building and its contents is estimated at \$225,000.

Wants Oleo Bill Voted.
Denver, May 5.—President J. W. Springer of the National Live Stock Association has sent a telegram to President Roosevelt asking him to veto the oleomargarine bill.

Dies from a Broken Neck.
Indianapolis, Ind., May 5.—Thomas Degolyer, the Anderson drayman, died following an operation to relieve paralysis due to a broken neck he suffered on Jan. 4.

Trot Against the Sultan.
Constantinople, May 5.—Rumors are in circulation that a plot against the Sultan has been discovered. The Second Eunuch has been banished.

CHILDREN LIKE IT.
"My little boy took the group one night," says F. J. Reynolds of Maudie d. Co. "and grew so big you could hear him breathe all over the house. I thought he would die but a few doses of One Minute Cough Cure relieved and sent him to sleep. That's the last we heard of the group." One Minute Cough Cure is absolutely safe and acts at once. For coughs, colds, croup, grip, asthma and bronchitis.

DEADWOOD STATE PRISON.
Deadwood, S. D., May 5.—Crazed by whisky three patients in the county pethouse ended a night of riot by setting fire to the building and destroying it after they had overturned beds and destroyed the furniture. The other patients, many of whom were in the worst stages of smallpox, narrowly escaped death. A temporary shelter was found for them after they had spent nearly all the night on the hillside.

Condition of Iowa Fruit.
Des Moines, May 5.—Secretary Wolsey Green of the State Historical society has issued a statement of the condition of the Iowa fruit May 1 as follows: Apples, 87 per cent; plums, 95 per cent; cherries, 85 per cent; pears, 83 per cent; peaches, buds killed; red raspberries, 41 per cent; black raspberries, 51 per cent; blackberries, 40 per cent; grapes, 43 per cent; strawberries, 62 per cent.

FOR OVER SIXTY YEARS.
Be sure and use that old and well-tried remedy Ma's Warranted Broomstick Syrup for children's ailments. It cures the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. The bottle.

WAS BURIED WITH NAVAL HONORS

Funeral of Pay Director Henry Taylor Wright, U. S. N., Who Died of Typhoid Fever at Sea.

Funeral services for Henry Taylor Wright, pay director in the United States navy, who died at sea on March 27, were held yesterday morning at Trinity chapel, in West Twenty-fifth street. The Rev. Dr. William H. Vibbert, vicar of the chapel, conducted the service. The coffin draped with the American flag, was carried on the shoulders of six sailors from the battleship Illinois.

"Among the members of the family at the service were Mrs. Wright, who is the daughter of the late Judge Gilbert M. Spier; her brother, Gilbert M. Spier, and her sister, Mrs. Gover A. Arnold. Some of the naval officers there were Rear Admiral McCann, Capt. Kane, Paymaster-General Stewart and Paymaster Simpson. Rear Admiral Erben said to a group of friends after the service:

"Wright was one of the most popular men in the service. You can't say anything too good about him. He was a remarkably efficient pay director."

"Mr. Wright was about 60 years old. He entered the regular navy in 1864, after service with the volunteer army in the Civil War. He completed his last tour of sea service in July, 1896, after which he went to the Brooklyn navy yard. He was assigned to the Asiatic station in 1901. In July, 1896, after which he went to the Brooklyn Navy Yard. He was assigned to the Asiatic station in 1901. He was on his way home from Hong Kong aboard a passenger ship when he died, of typhoid fever."

The New York Sun contains the above notice of the funeral services of Mr. Wright, which were held in New York last Wednesday. The remains were brought from Port Said to New York for burial.

Mrs. Frank D. Kimball went to Madison on Saturday to visit her son Frank, who is attending the University.

Fidgety

people are lacking in nervous strength. The weak, care-worn, melancholy, headachy, and low-spirited men and women are easily excited, impatient, fidgety, and unable to sleep at night. Worn-out nerves must be built up, and the vitality of the whole system replenished before relief can come.

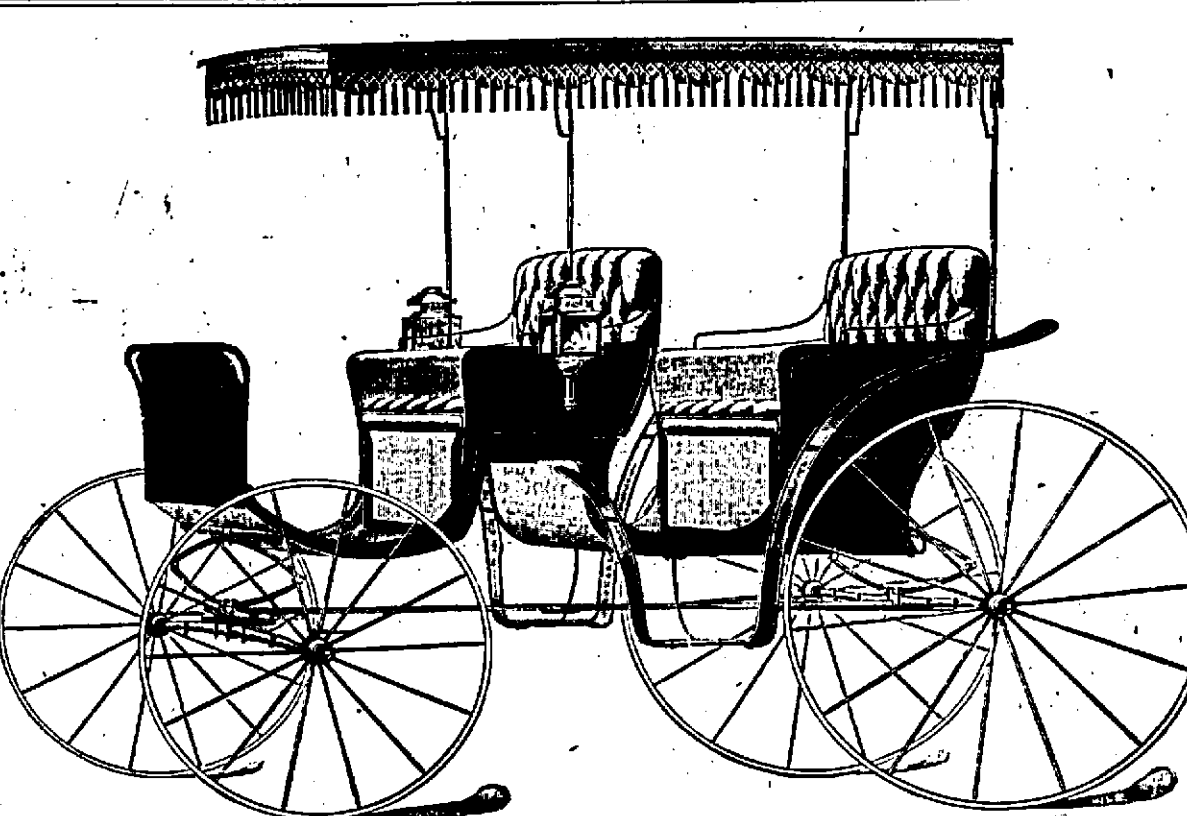

"The least bit of noise or sudden jar would nearly drive me crazy, and I was just too fidgety for anything. I was so nervous that I could not rest or sleep. The first dose of Dr. Miles' Nervine brought me sleep, and after that I got well fast."

Mrs. A. R. MORRELL, Arcola, Ill.

Dr. Miles' Nervine

builds up the nerves, strengthens the brain, and fortifies and refreshes the whole system.

Sold by druggists on guarantee. Dr. Miles Medical Co., Elkhart, Ind.

COUNTY ASSESSORS

The assessors of Wood County, some 26 in number, recently met at Grand Rapids, and were addressed by county assessor J. W. Cochran, who for many years was a law partner of Judge Webb. Mr. Cochran said in part:

"Mr. Cochran earnestly advocated that description of property be corrected and made exact on the assessment roll; that assessors go after the large bunches of property and assess such things first; otherwise they might overlook the haymow in their diligence to find the needles in it; and if they should be, for want of time, unable to list and assess everything, it were better than the widow's mite escape than the aggregated wealth of large corporations, paying large dividends to individual stockholders whose names do not appear upon the tax rolls at all; that every good citizen of the United States ought to be proud and anxiously willing to bear and promptly pay his just proportion according to his financial ability; to do so of the expenses of government, the expense of building roads and bridges, and maintaining good schools, and all of the incidents of our advanced civilization; that governments have their enemies within as well as without their limits, domestic as well as foreign foes, and he classed every professional tax-dodger as a domestic foe and a traitor to his country; that the bone and sinew of the nation rests with the middle class who furnish as a rule, the soldiers in time of war and the money to carry out and protect the government at all times."

The work of the tax commission is being recognized and it is safe to say that under the supervision of county assessors, that a more equitable basis of taxation will be established. The greater publicity that is given the questions of taxation, the nearer will be the approach to common justice. It is so customary to dodge taxes at every opportunity, that the practice is generally regarded as legitimate, and yet the fact remains that the man who does not pay his just proportion, permits other men to pay his honest debts. The assessor should of course, exercise common sense judgment in placing valuations and property should be given the benefit of the doubt, at the same time, the owners of property, should show a disposition to be perfectly fair.

When the one mill school tax is abolished, as it should have been long ago, and the schools are required to present their budget for audit, the same as all other departments, there will be but little cause for complaint.

SOME INTERESTING HISTORY

In another part of the paper will be found the third of a series of articles prepared by Senator Whitehead.

When the Senator accepted the call to become a candidate for governor he announced that at the proper time he would discuss the issues of the campaign, and he has decided to do it through the columns of the press. The discussion, as will be noticed by the three communications already published, will be fair and impartial.

It will be generally conceded, that no man in the state is better qualified to intelligently discuss these questions, than Senator Whitehead. He was a recognized leader in the senate and thoroughly familiar with the legislation enacted, as well as with measures defeated. His judgment on the primary law is unbiased, because he had no hobbies to exploit, and was not influenced by personal ambition. He was ready to assist the Governor in framing a primary law that would have met with popular approval. But when he discovered that the Stevens bill was the only measure that would be considered, he was obliged to reluctantly abandon all hope of compromise.

The series of articles will be well worth carefully reading. They will not only cover the history of the legislature, but they will deal with practical questions of the campaign.

DEVILS LAKE

One of the most interesting problems which has come under the notice of the hydrographers of the United States Geological Survey is the gradual drying up of Devil's Lake in North Dakota. Devil's Lake, or Lake Minnewauka, as it is called by the Indians, is the largest body of water in the state. It belongs to the numerous class of lakes formed by the great glacial ice sheet on its final retreat toward the north. Then and for some time after, when it was the glacial period, it has an outlet to the south into the Sheyene River; and a well marked and empty channel still remains between the lake and the river. Long before settlers first came to the region in 1850, the lake had sunk below the level of this channel and has since been without an outlet. Regular observations for the last nineteen years show a steady and almost uninterrupted sinking of the water. Groves of trees, which once stood at the beach, are now separated from it by broad strips of sand, and

the shallow parts of the lake, notably the long arms and bays have been left quite dry.

Another important and interesting feature is the change in the water from fresh to salt; this has taken place within the memory of man, and is in some particulars producing unfavorable results. Fish were found in the lake in great abundance up to about 1885; since then they have grown rapidly less, until now practically none are caught.

The United States Geological Survey has established a bench mark near the lake, and under the charge of Prof. C. M. Hall, of the State Agricultural society, will keep records of the fluctuations of the waters and a general study of their decline. The investigation promises most interesting results, which may throw some light upon the climatic conditions of the past.

Francis S. Moore, a Chicago organizer has discovered that the course of true love, is sometimes a little rocky. He was engaged to a Minneapolis girl, and all arrangements made for the wedding, when he discovered a woman in Chicago, who suited him better. They were married, and he is now confronted with a breach of promise suit for \$15,000 to sweeten the honeymoon.

Santo-Dumont, of air ship fame, will do a little flying in New York next month. He wants \$2,000,000, to construct an air ship that will carry 1,000 passengers between New York, Liverpool, J. Pierpont Morgan should go a little slow, when Dumont gets down to business ocean liners won't be worth taking home.

Who was the man, who thought the country was going to the dogs, for lack of rain. Many people would like to try a hand at the weather, but the bureau man is the only one who enjoys the privilege, and he isn't always a winner.

While the government is investigating the beef trust, and the retail meat shops are going out of business because of high prices, western shippers are under orders not to ship any more cattle until further notice. It begins to look as though the common people would be turned out to grass.

The busiest convention on record, is now in session at Los Angeles. The gathering of notable women from all parts of the country, will resolve on a great many reforms, while the husbands of the contingency are at home attempting to keep house.

If Mr. Dahle is a reasonable man, he will listen to the governor's explanation. If La Follette made him politically he would of course expect to handle him. The game of politics is a little peculiar, but something like love and war. Everything is fair.

A Sheboygan girl entered the matrimonial state, with a white poodle dog in her arms. The dog wore a smile and a blue ribbon. The affection of the bride appeared to be divided.

The May strike was not so serious as anticipated. Work is plenty, wages good, and a great army of workmen contented.

PRESS COMMENT.

A mere increase of taxation is not reform; neither is a large increase of expenditure without apparent cause. But this "reform" administration at Madison has given us both.—Cambria News.

Madison Journal: The new Janesville Daily is dead after two months' lingering illness. The cemetery holding newspapers started on the promises of politicians is sadly overcrowded. In the estimates the Saturday pay roll is usually omitted.

State Register: The Oshkosh Northwestern, the ablest LaFollette newspaper in the state, has declared in favor of the re-nomination of Senator Spooner, saying that "it is much easier to find timber for a governor than for such a senator as John C. Spooner."

Green Bay Gazette: Congressman Dahle is in trouble in the second district. H. C. Adams came out a stalwart candidate against him some time ago and now the LaFollette men have turned against him. The way of the political aspirant is hard, especially when he gets between the opposing factions as is Dahle at present.

There is no candidate in the field against Senator Spooner, declares the esteemed Free Press. Why, certainly not. How can there be a candidate in the field against Senator Spooner when he is not in the field himself, and cannot be a candidate either.—LaCrosse Organ.

Hudson-Star Times: John M. Whitehead still lives as a vital factor in the politics of Wisconsin; but the Daily News that was recently started at Janesville by Robert M. LaFollette influences to defeat Whitehead in his own community has gone bump. It ran behind at the rate of \$200 per week, and like similar ventures in other places, the men who were the first to encourage the factional sheet, were the first to abandon it, when financial needs were pressing. Oconomowoc Enterprise: During the past few weeks Senator Whitehead has shown the people of the state that he is a coolheaded and calm, unexcitable man, the very kind needed in the governor's chair at Madison. The falsehoods that have been published about him have in no wise disturbed him, and he says that he expected even worse things from

men who depend on prejudice and falsehood to win. The campaign of misrepresentation began too early in the season to have the desired effect.

Marquette Eagle: The Milwaukee Free Press has kindly printed a few thousand copies of a little book that tries to explain away some of the governor's mistakes.

Delavan Enterprise: A cold chill must have run down LaFollette's back when he learned that the convention at Lancaster had adjourned without giving him or his administration an endorsement. Evidently the people in the third district in sympathy with republican ideas and principles, have had enough of LaFolletteism.

Delavan Republican: Why should there be any change in the program of the League in its opposition to Gov. LaFollette? The cause of the League is gaining in strength every day and the cause of LaFollette is losing strength every day. Those who believe in the cause represented by the stalwart Republicans have every reason to be encouraged.

When they meet Appleton Crescent: When two "immovable" objects come into collision, which one will be crowded out of the way? Stephenson says it must be Spooner; a large crowd, constantly increasing in numbers, say it must be LaFollette, while a homely old fellow answering the name of Common Sense, remarks that it will be both. The cannot compromise, because the one is too insincere and unreliable—not to be trusted. Sad, very sad, isn't it?

Permanent. Those persons who had coaxed themselves into believing that the Wisconsin Republican League had gone out of business are likely to encounter a rude awakening. While these stories have been circulated by the LaFollette Press and its aids the league has been saying little. It has been working right along in accordance with the original plans. As a result, the stalwart sentiment in the state is growing steadily and the league organization has lost none of its effectiveness. The object of the league is to perfect an organization of republicans whose fealty is to the principles of the party. There is good and sufficient reason for such an organization which will be useful not only in this but in future campaigns as well.—Fond du Lac Commonwealth

Alas, a Dream. The suspension of The Janesville organ, goes to show that the governor's personal organs are not successful as money makers. The News started up hopefully, enjoying the impression that Janesville was the city where LaFollette supporters were thicker than hairs on a dog, and only waited an opportunity to throw money into the coffers of a newspaper supporting the governor. It was truly a beautiful dream, but alas! 'twas only a dream. The fight was hopeless from the start and the publisher so found it to his sorrow. The suspension of The News practically removes all Rock county opposition to Hon. John M. Whitehead's candidacy for governor.—Lodi Enterprise.

Killed Five Young Wolves. John W. Bates, of the town of Porter, appeared in County Clerk Starr's office this morning with five young wolves, which he dug out of a burrow and killed while out hunting yesterday. The little fellows were about the size and color of shepherd puppies and were worth \$6 apiece to Mr. Bates as the county pays \$3 bounty and the state the same amount.

Bates had seen the old she-wolf in the neighborhood of where he found the den several times. He went out hunting for her and came across this hole in the bank. He stopped and listened and heard the little fellows barking. He stopped up the hole to prevent their getting out and went home for a shovel. He soon had them dug out and when he reached the bottom of the hole he shot the little fellows with a rifle.

Grading North First Street. P. W. Ryan finished grading North First street Saturday and did a very good job. The old sand pit on that street which furnished thousands of loads of fine sand for many purposes is now a thing of the past. This street now furnishes one of the easiest grades to reach the Second ward. The cutting down of the street has made it necessary for several of the property owners between Wisconsin and Bluff streets to build stone walls to prevent the caving in of their front yards. Water, gas and other pipes have had to be overhauled and placed lower down.

Workmen are engaged today in putting up the last timbers of the tower of the new city hall, and by the close of this week the entire roof of the hall will have been finished. Masons are now at work plastering the interior with the rough coat and have about finished that work.

Dr. Willard McChesney, of Edgerton, was in the city today on professional business.

Will Saxby, will have charge of the Marquette warehouse, at the foot of Jackson St., and will open up Monday morning with about seventy hands.

HOSIERY FOR SPRING AND SUMMER.

A showing of all the new novelties in "Onyx Hosiery" for women direct from Lord & Taylor, New York, probably the largest importers of fancy hosiery in America. The new Jewel patterns, the new embroidered patterns, the white with black and black with white combinations, novelty designs in drop stitch patterns, solid black with colored clocking; all the staple lines of solid blacks. At 50c, upwards of a hundred styles of fancy designs but some great values in solid black, also in drop stitch. At 25c, a limited number of styles of fancy designs but some great values in solid black, also in drop stitch. At 15c and at 10c we always show the best values in town.

For Men.—Some fancy Half Hose at 15c, 25c and 50c that are excellent values. For Children—No store gives better stockings for school wear than we do for the price. 10c black ribbed, sizes 5 to 9; 15c, boys' heavy, double knee, sizes 6 to 10. 25c, a dozen kinds and all a little better than other stores sell for the same money.

More Sample Suits. The season for the retail store is at its height, but for the manufacturer it is about over.—An eastern maker offered us his line of show room samples at a liberal discount and we accepted the offer, with the result that we show today dozens of new Suits, and all at

much under regular price. You will be surprised at the excellent values you will find at \$12, \$13.50, \$15, \$16.50, \$18 and \$20. No better chance was ever offered right in the middle of the season than now to buy the noblest of women's Tailor-made Suits at such reasonable figures.—Investigate.

BEETS TO BE KING IN ROCK COUNTY

Plans To Establish a \$450,000 Plant in City of Janesville.

NO BONUS WANTED

Menomonee Falls Company Is Negotiating with Business Men's Association.

MEET TUESDAY NIGHT

Beet sugar promises to be the leading product of Rock county if the plans of the Business Men's association are carried out. L. B. Carle, president of the Janesville Business Men's association has issued a call for a meeting of the association to be held tomorrow evening at the Municipal court room.

The meeting is called for the purpose of considering a proposition from the Wisconsin Beet Sugar Company of Monomonee Falls to locate in this city. This company manufactures sugar from beets and one of the principal things necessary to get them to locate here is to induce the farmers to grow beets in sufficient quantity to operate the works.

If this can be done and the other details in regard to location settled they may erect a factory here next season that will cost a large amount of money. The details of the plan will be fully shown at the meeting tomorrow evening and all members should attend.

Inspected Monomonee Falls Plant

At a recent meeting of the Business Men's association a committee consisting of Senator Whitehead, A. E. Bingham and F. L. Clemens were appointed to examine into the feasibility of starting Rock county into the industry. The committee visited the factory at Monomonee Falls and made a thorough inspection of the manufacture and growth of the beet.

Their report at the meeting tomorrow night is highly favorable to the project. The plant at Monomonee Falls, although many things hampered during the first season's run, made money. The farmers who had engaged in growing the beet were well-satisfied and declare that the growth was the best-paying crop they ever attempted.

Want Plant in Rock County

They have a desire to establish a plant in Janesville, from the fact that Prof. Henry of the State Agricultural College has declared that the Rock County beet product is the best for the production of sugar among all the counties of the state where tests have been made. Prof. Henry procured several small crops in this county last year and made thorough tests in regard to sugar production and he says the soil of this county is especially adapted for raising the sugar beet.

The Monomonee Falls Company does not ask for a bonus to locate a plant in this city. All they ask is a guarantee of the business men of Janesville to assure an acreage of about 4,000 acres. With this assurance they will contract to erect a plant to cost at least \$450,000.

In addition they ask that 40 or 50 farmers plant from two to three acres this season, the product to be used in tests this fall. As there is no doubt about the result of the tests, the factory seems to be assured.

Greater Profit Than Tobacco
The profit to farmers in raising beets is better than that on raising tobacco. This the figures at Monomonee Falls and other points in the state amply verify.

At the meeting tomorrow night the committee will make its report and the matter will be talked over in its various phases. Prof. Henry of the state university experiment station and representatives of the Monomonee Falls company are expected to be present and explain the details of growth and manufacture.

Great interest in this matter is manifest among the business men and there is no doubt that the attendance at the meeting tomorrow night will be very large.

A communication from Fred G. Cowles, of Saginaw, Mich., in regard to locating here with a factory for the manufacture of brick out of sand and lime will also be considered.

CITY NEWS IN BRIEF

Carpets called for, cleaned and returned the same day. J. F. Spoon & Co.
M. H. Bradley was taken from his boarding place Saturday night to the detention hospital, suffering with small pox. Health officer Edlen is much displeased with the condition the building was in and said it was not fit to take a patient to.

Have your carpet cleaned in our improved machine. J. F. Spoon & Co.
Judge Fifield is engaged today in trying the case of the state against Michael Holloran, Jr., charged with carrying concealed weapons. District Attorney W. A. Jackson appears for the state, and Edward H. Ryan for Holloran.

Mrs. John Eagen died at her home on Western avenue, about 8:30 o'clock this morning, after an extended illness. Notice of funeral will be given later.

The Woman's Foreign Mission Circle of Court street M. E. Church, will meet with Mrs. C. A. Rogers, 121 S. Main St. on Wednesday, of this week, May 7th, at 2:45 p. m. Subject: Via Christ, under an efficient leader, Scripture Promises at roll call. Plan for the day and the hour. Street cars pass the door.

EVENTS OF THE DAY.

Y. P. S. party, Assembly.
May 6—Ladies' Auxiliary, B. of R. T., Assembly.

Members of the Unique club will meet this evening at 8 o'clock sharp. Business of importance.

Mrs. August Seestadt, of Chicago, is the guest of Mr. and Mrs. Win. Heise, of this city, for a few days.

Constable Miles Cox is doing night watch duty for Joan Kilmer, who has gone into Northern Wisconsin.

Just as fragrant as any 35-cent coffee on earth. Our 25-cent coffee, C. D. Stevens.

Asparagus—the healthiest and cheapest vegetable—is at its best. W. W. Nash.

It will pay to take a look at our gent's summer underwear for two, three and four shillings. T. P. Burns.

Don't forget the Chinese social by the Mission Band, Wednesday, 7th, 1962, at the First M. E. church.

A mass meeting of the respective unions of the Building Trades council will be held at Assembly hall on Wednesday evening.

Your money back if you are not satisfied with our special brand of tea at 50 cents per pound. C. D. Stevens.

No trouble to find just what you are looking for here in carpets, rugs and linoleums at money saving prices. T. P. Burns.

The several traveling salesmen for the Marzuff shoe factory are sending in a goodly number of orders, and the outlook for the busy season is promising, indeed.

There will be a musicale at the home of Mr. and Mrs. Sanford Sovorhill this evening, given by their daughters, assisted by their teacher, Miss Woodbury.

Mr. and Mrs. Arnold Detroyer are mourning the loss of their three-year-old son, who passed away today. The funeral will be held Tuesday afternoon, from the home.

The dancing party to be held at Assembly hall this evening by the Y. P. S. will undoubtedly be one of the most enjoyable parties of the year.

In compliance with the last general orders issued by the W. R. C., Wednesday, June 4th will be observed as a memorial day to the deceased members of the Woman's Relief Corps.

Euretta Kimball will represent the Janesville High school at the state declamatory contest, May 30th. Hear her selection at Mrs. Day's entertainment next Monday evening.

Prof. Smith's orchestra of 8 pieces will play this evening for the Y. P. S. party at Assembly hall. The floral decorations will be elaborate and costly.

Frank Ryan felt through the glass in the door of his father's livery office Saturday afternoon while scuffling and cut both his hands quite severely. Dr. Woous attended to his hurts.

A good sized crowd attended the Imperial band dance at Assembly hall on Saturday night. The music was furnished by the band and was enjoyed by all. These band dances are quite popular and are conducted in an orderly manner.

The ball game Saturday afternoon at Athletic park between the Beloit Academy team and the Janesville High school team resulted in a victory for the visitors by a score of 13 to 5. The academy team greatly outclassed the high school team.

All the Hooligans answered to roll call at the home of Mrs. R. W. Winkler, Saturday afternoon, and a good time was had playing their favorite game, high king. Miss Ada Brandt Hooligan captured the first prize; the consolation falling to Mrs. D. Brown Hooligan.

The Lorna, was taken out if winter quarters Saturday morning and taken to her boat house near the railroad bridge. The boat has been repainted and a number of new parts added to the engine, so that she is in perfect repair for the summer campaign.

The Hayes Bros. Co., will do the grading for the spur track from the Janesville and Southeastern road to the plant of the Janesville Cement Post Co. They will put a gang of men at work on the contract this morning and expect to get the track laid in a short time.

May 12th is the date and the Opera House the place where the athletic girls will entertain their friends and all who are interested in getting and keeping good health; who enjoy fine music, dramatic and humorous readings, statue posings, gymnastic feats, and studies in expressive action.

The Murphy meeting at the Y. M. C. A. building on Sunday afternoon was well attended. J. H. Nicholson lead the speaking and general discussion was indulged in. J. C. Kline lead the singing and an enjoyable hour was spent by those present.

Captain Alex Bucholz has about completed a handsome steam launch which will be used for private parties on the river during the summer. The size of the boat is 32x7 1/2 feet and is fitted with a five horse power engine. It will undoubtedly be very popular with parties wishing to make trips up the river this summer.

HAS PUT ON FOUR NEW FREIGHT RUNS

Increasing Traffic on the St. Paul Railroad In and Out of the City of Janesville.

The Chicago, Milwaukee & St. Paul railroad on account of the increasing freight traffic, have been obliged to put on four new freight runs in and out of the city. The runs are between Milwaukee and Janesville and Madison and Janesville. The train for Madison leaves here at 8 a. m. each day and reaches here on the return trip at 8:45 each evening. On the Milwaukee run the train leaves here at 7:10 in the evening and the train on the opposite run arrives from Milwaukee at 6 a. m. The runs went into effect today. Janesville will be the headquarters for the crews, as the trains will be made up in this city. This means that four crews in addition to those already here will make their homes in Janesville. Since the Janesville and "Southeastern" was opened by the St. Paul road, their freight business between this city and Chicago has increased wonderfully and has necessitated their putting on more freight runs to handle the business between Janesville, Milwaukee and Madison.

The St. Paul company has several other changes in view that will result in benefit to this city. They are rapidly gaining favor with the business men who are satisfied that the company is striving to help build up the business of the city.

INSPECTION TOUR OVER NEW ROAD

Janesville Party in Charge of H. H. Cough Make a Trip Over the Electric Line.

Alderman H. H. Cough, T. S. Nolan, City Attorney F. C. Burpee and A. E. Bingham went to Beloit yesterday morning and were the guests of H. H. Cough on a tour of inspection, of the new inter-urban line between Beloit and Rockford. They first visited the new power house and were much pleased with the building and its equipment, which is of the very latest pattern.

The party then boarded a passenger coach and were drawn over the line by a steam locomotive. They went from Beloit to within about a mile of Rockford and then back to Beloit. The road is practically finished between Beloit and Rockford. The trolley poles and wire are all in place, the fences are all built, and the ballasting of the line is finished with but one or two exceptions. The party enjoyed their visit very much and thought the line equal to any steam road they had ever ridden over.

The road is not yet completed into Rockford on account of trouble with the Northwestern about crossing their tracks. The promoters of the road are now working with the Northwestern for a settlement of the matter and expect to have it all fixed up in a day or two. They will then complete the line in Rockford and will be ready for traffic between Beloit, and Rockford.

CITY NEWS IN BRIEF

See our styles and get our prices on lace curtains before purchasing. T. P. Burns.

A marriage license was issued today to Gus Gallitz and Fannie Thomas, both of the town of Fulton.

The Hooligan family gathered Saturday afternoon with Mrs. R. E. Winkler, 153 S. Main street, and had an enjoyable time. The afternoon was spent in playing cards and enjoying the refreshments served by the hostess.

The Boy Phenomenon, the gifted magnetic healer, has returned to Janesville for a few weeks, and is receiving patients daily at the Hotel Myers. Consultation in all cases is absolutely free, and charges for treatment very moderate. Special terms to old patients.

The highway committee gave Milwaukee street bridge a thorough inspection Saturday and decided that it would need a new deck and a number of new piles to put it in shape for several years more of wear. Court street bridge was closed Saturday to traffic, while the repairs are going on. It will need two new bents on the west end and considerable new plank. Fourth avenue bridge is in bad shape and will need a thorough overhauling.

Jerry Murphy, employed by Hayes Bros., on their grading and track laying work for the Beloit, Delavan Lake and Janesville Electric road, was struck by a rail Saturday afternoon and received a bad cut over the eye. He was taken to Dr. J. W. St. John's office, where his injury was dressed. He will have a sore need for a day or two.

H. H. Clough, while in the city, Saturday, stated that the electric line company had practically decided to take in two blocks with their loop instead of one, and not run a block on Jackson street. This will take the line up Wall to High, north on High to West Bluff, east on W. Bluff to Franklin and south on Franklin to Wall streets.

Yesterday morning Stuart B. Heddes, Sanford Soverhill and George H. Rumrill departed for Cincinnati, Ohio, where they will attend the annual meeting of the National Tobacco Dealers' association. Levi B. Carle left this morning for the same meeting. The meeting began today and this evening a general banquet will be served to those present at the meeting.

E. H. Connell, John Hemming, Rev. Father Collins and several others, accompanied an excursion from Beloit to Fond du Lac yesterday morning. The excursion was gotten up by the Knights of Columbus, of Beloit, and members of that lodge instituted a lodge of the K. of C., at Fond du Lac yesterday afternoon and the banquet was held in the evening.

Nash's 50-cent tea.
Nash's 25-cent coffee.
They're the best.

The toastiest, freshest crackers and sweet goods in the city. W. W. Nash.

CEMENT POST CO BEGAN WORK TODAY

Contractor Peters Started a Dozen Men Preparing Ground for Factory Foundations.

Active work on the new buildings for the Cement Post Co. began this morning when Contractor J. W. Peters started a dozen men at preparing for the foundations. The site for the structures have been staked out and material for the construction of the buildings is being brought in ready for use.

New men will be added to the working force as rapidly as they can be secured and the work of construction pushed as rapidly as possible. The task of constructing the buildings is no small one and a large force of workmen will find work thereat for several months to come.

This morning Hayes Bros. started about a dozen men and seven or eight teams grading the sidetrack from the main line of the Janesville & Southeastern railway to the factory site, a distance of about a half mile.

Byron Cassody Dead

Byron Cassody, seventy-eight years of age, passed away this morning at his home, 206 North street after a short illness. He fell about a week ago and fractured one of his legs and never fully recovered from the shock. Deceased was born in Ireland and came to this country to reside fifty-two years ago and has been here since that time. He leaves to mourn his loss a wife and six sons, Michael of Springfield, Mass.; John of Fargo, N. D.; G. B. Cassody, of Chicago; Joseph of Deadwood, S. D.; Peter and James of Janesville, and two daughters, Misses Nellie and Maggie, both of this city. The funeral notice will be given later.

Something You Can Eat

All our own cake from the best recipes Janesville can produce. Lovely women, clean kitchens, best materials and expert skill produces raised biscuits, whole wheat bread, fried cakes, doughnuts, chocolate cup cakes, wine cookies, layer cakes, lemon pies, cream puffs, etc. If you have a better recipe for any of these goods kindly talk to Grubb.

5 PER CENT. GOLD BONDS

SOLD ON INSTALLMENTS

A New order issued by

The Metropolitan Life.

OF NEW YORK.

One of the Largest Life Insurance Companies in the United States.

Practically As Strong As the Government.

You would like to buy 5 per cent. Government Bonds and pay for them in ten, fifteen or twenty installments. Would you not? The Government does not issue 5 per cent. Bonds, nor can you buy its bonds on installments.

You can Purchase Metropolitan Bonds in that way and 5 per cent Bonds at that.

Again, in the event of your death at any time before you had completed these installments, even if ONE ANNUAL INSTALLMENT ONLY had been paid, the Bonds being assured by the Metropolitan Life would immediately be turned over to your estate and ALL UNPAID INSTALLMENTS CANCELLED.

The Metropolitan Life guarantees every \$1,000 Bond to be worth \$2,000 at time of maturity, ten, fifteen or twenty years. The coupons on the bonds are payable in GOLD, semi-annually, at the rate of 5 per cent. for twenty years, after which the bonds mature and be paid in GOLD. At the end of this time when desired, the Bonds can be computed for cash. The Bonds have cash and loan values. Interest at 5 per cent, and become automatically paid up. The Metropolitan wrote \$380,000,000.00 of new insurance last year, at the rate of over \$1,000,000.00 per day. For subscription blanks or further information apply to

RIOTOUS ITALIANS SAVED FROM MOB

Sheriff Captures Two Out of
Fifty Bent on Having
a Time.

FIRE REVOLVERS AT WOMEN

Follow Insult with Shots, Which Attract
Citizens, Who Engage the Drunken
Gang Till the Arrival of Officers in
an Automobile.

Racine, Wis., May 5.—Fifty Italian
laborers employed by the Milwaukee
railroad made murderous attacks on
Miss Nellie Brown and Mrs. Sarah
Burns and fought so desperately
against capture that only two were
caught, this after the sheriff had
chased them with an automobile.
The two prisoners were lodged in jail
after running the gauntlet of a mob
beat on summary justice.

The gang left its quarters in the
workmen's cars on the siding near the
town of Corliss, seven miles north of
Racine, and walked to the saloon of
Deputy Sheriff John Burns for a
carouse. Near the saloon they met
Miss Brown, who is a daughter of
President William Brown of the Corliss
Engine works. They insulted the
girl and when she ran one of them
fired two shots at her from a revolver.
A bullet tore its way through her
skirt and another grazed her head.

The Italians found the mother of
Deputy Sheriff Burns alone in the
saloon and when she resented their
familiarity they fired several shots at
her from their revolvers, but the bul-
lets all lodged in the wall and floor.

The noise of the shooting and the
screams of the women attracted a
crowd and the Italians retreated to the
railway station of the Milwaukee road.
The operator telegraphed an alarm to
Racine, where the sheriff loaded an
automobile full of deputies. The auto-
mobile made the run to Corliss in
twenty minutes and officers and citi-
zens pursued the Italians and shots
were exchanged on both sides. The
Italians fled, but two of them were
captured and taken to the railroad
station. The officers had hard work
to persuade the citizens not to lynch
them.

In the midst of the excitement a
third Italian tried to effect the re-
lease of his companions and fired at
the officers. The mob pursued this
man to the woods. At this moment a
train came along and the officers
brought the two captives to Racine
and lodged them in jail.

Condemns Philippine Immorality.
La Crosse, Wis., May 5.—A resolution was adopted by the State Epworth League convention condemning the government for the immorality in the Philippines. President Roosevelt's attitude on it was commended, however. A resolution was also adopted urging Congress to amend the constitution by adopting a law prohibiting polygamy.

AN OLD SORE

months of diligent and faithful use of external remedies that the place remains as defiant, angry and offensive as ever. Every chronic sore, no matter on what part of the body it comes, is an evidence of some previous constitutional or organic trouble, and that the drugs of these diseases remain in the system; or, it may be that some long hidden poison—perhaps Cancer—has come to the surface and begun its destructive work.

The blood must be purified before the sore will fill up with healthy flesh and the skin regains its natural color. It is through the circulation that the acid, corroding fluids are carried to the sore or ulcer and keep it irritated and inflamed. S. S. S. will purify and invigorate the stagnant blood when all sediment or other hurtful materials are washed out, fresh rich blood is carried to the diseased parts, new tissues form, and the decaying flesh begins to have a healthy and natural look; the discharge ceases and the sore heals.

Several years ago, my wife had a severe sore leg and was treated by the best physicians but received no benefit. Our druggist advised her to try S. S. S., which she did. Fourteen bottles cured her and she has been well ever since.

Will sour the sweetest disposition and transform the most even tempered, lovable nature into a cross-grained and irritable individual.
If impatience or fault-finding are ever excusable it is when the body is tortured by an eating and painful sore. It is truly discouraging to find after months of diligent and faithful use of external remedies that the place remains as defiant, angry and offensive as ever. Every chronic sore, no matter on what part of the body it comes, is an evidence of some previous constitutional or organic trouble, and that the drugs of these diseases remain in the system; or, it may be that some long hidden poison—perhaps Cancer—has come to the surface and begun its destructive work.

The blood must be purified before the sore will fill up with healthy flesh and the skin regains its natural color. It is through the circulation that the acid, corroding fluids are carried to the sore or ulcer and keep it irritated and inflamed. S. S. S. will purify and invigorate the stagnant blood when all sediment or other hurtful materials are washed out, fresh rich blood is carried to the diseased parts, new tissues form, and the decaying flesh begins to have a healthy and natural look; the discharge ceases and the sore heals.

CONGRESS HONORS A. J. CUMMINGS

Public Memorial Services
Over the Remains in
the House.

SUCH ESTEEM RARELY SHOWN

On Two Other Occasions Has Representative's Hall Been Used for Deceased Members, the Distinction Being Accorded Kelly and Dingley.

Washington, May 5.—Public memorial services were held over the remains of the late Representative Amos J. Cummings in the hall of representatives. Only twice before in recent years has such an honor been accorded to a deceased representative, those occasions being the state funerals of Representative William D. Kelly of Pennsylvania and Representative Nelson Dingley of Maine.

Almost the entire membership of the house and senate were present. Delegations from the New York Grand Army of the Republic, Typographical Union No. 6, the New York Pilots' Association and various letter carriers' associations were in attendance. Secretary Cortelyou was present as a representative of the New York Press Club.

Rev. Dr. Conden, chaplain of the house, offered the opening prayer. Addresses were made by Rev. Dr. Wallace Radcliffe of the New York Avenue Presbyterian Church and Rev. J. G. Stafford of St. Patrick's Roman Catholic Church.

The body arrived here from Baltimore in the morning and was conveyed to the hall of the house by the congressional committee.

The body was taken to New York to-night, where interment will take place Wednesday.

The announcement of his colleague's death was made in the house Saturday by Mr. Payne of New York, who presented resolutions deploring his death and providing for services in the house which were unanimously adopted. The speaker announced the following committee to attend the funeral: Messrs. McClellan, Wadsworth, Sulzer, Ray, Fitzgerald, Sherman and Ryan, all of New York; Young (Pa.), Clark (Mo.), Foss (Ill.), Williams (Miss.), McCleary (Minn.), Tate (Ga.), and Oley (Va.). At 12:15 o'clock the speaker, as a further mark of respect, declared the house adjourned. The senate also adjourned at 2:45 o'clock, after the adoption of resolutions and the appointment of the following funeral committee: Senators Platt (N. Y.), Kean (N. J.), Penrose (Pa.), Jones (Ark.), and Bailey (Texas).

At Baltimore the remains were escorted to the train for Washington by delegations from the Baltimore Typographical Union, letter carriers and Grand Army. A committee from the Baltimore Journalists' Club came to Washington on the funeral train.

CUBAN EXPORTS DECREASE

Shipments to the United States Show Falling Off of \$5,000,000.

Washington, May 5.—The insular division of the war department gave out for publication a statement showing

in comparative form the commerce of Cuba for the eight months ended Feb. 28, 1902 and 1901. The value of merchandise imported during the stated period of 1902 was \$44,659,314, against \$42,920,814 for the corresponding period of 1901. Export figures show \$28,457,226 worth of merchandise in 1902 and \$31,008,270 in 1901. These returns show an increase of 4 per cent in imports and a decrease of 16 per cent in exports.

Merchandise coming from the United States into the island aggregated \$19,140,519 during the eight months ended Feb. 28, 1902, a slight increase over the corresponding period of 1901. The exports from Cuba to the United States during the 1902 period amounted to \$18,155,540, a decrease of about \$3,000,000. The value of sugar shipments to the United States during February of 1901 was \$4,320,033, as compared with \$1,385,487 for the corresponding month of the present year.

URGES NEW DEPARTMENT.

President Wishes Commerce Portfolio Created Before Adjournment.

Washington, May 5.—The leaders of both houses have been urged by President Roosevelt to effect at an early date, and without fail before adjournment, legislation for the establishment of a department of commerce. They are said to have assured Mr. Roosevelt that the bill, which will be brought up from committee in the house, will be passed. In such case the new department will be established in all probability on July 1 and the new cabinet officer thereby constituted will enter office on that date. The name of George B. Cortelyou, secretary to the President, has been frequently mentioned in connection with the commerce portfolio. He is generally considered admirably fitted for the position.

Panic in Pension Office.

Washington, May 5.—There was a panic in the pension bureau Saturday. Women screamed and fainted and men made a mad rush for the doors to escape from the building. Their fright was caused by the sound of crashing timber and their belief that the walls of the office had given way. The cause of the commotion was the fall of an electrician from a ladder which he had stood to make repairs to an electric connection. Feeling the ladder slipping from under his feet, he grasped the moulding which concealed the wires and the ripping of the wires from the ceiling and the crashing of the ladder as it fell upon the floor produced a noise which sounded like the falling of a wall.

Rule for Financial Bill.

Washington, May 5.—The house committee on rules decided to report a special rule for the consideration of the financial bill introduced by Mr. Hill of Connecticut and favorably reported from the committee on coinage, weights and measures, terminating the coinage of standard silver dollars and providing for the increase of the subsidiary silver coinage. The committee also decided to give time to the anti-anarchy bill reported by Chairman Ray of the judiciary committee and the immigration bill reported by Chairman Shattuck of the immigration committee. No exact time was set for taking up any of the measures.

Publishers Gain a Point.

Washington, May 5.—The publishers who are fighting the exclusion of their publications from the second-class postal rates scored a point in the district supreme court. The court overruled the government's motion to require the complaining publishers, during the pendency of the restraining orders against the postoffice department, to furnish adequate bond or deposit cash with postmasters covering the higher third-class postage on their publications, the excess to be refunded in case the publishers finally win. The cases will be decided in a few days.

Sends Warship to Santo Domingo.

Washington, May 5.—So serious has become the revolt in Santo Domingo that upon the request of the secretary of state, Secretary of the Navy Moody, instructed the Cincinnati to proceed to the waters of that republic and protect American interests. The Cincinnati has been ordered to report to Minister Powell, with whom she will act. If it should appear that Mr. Powell or any American citizens are menaced marines will be landed and will remain ashore as long as may be necessary.

Stands by Brother Officer.

Washington, May 5.—First Assistant Postmaster General Wynne received the first word that has come to this country direct from any of the officers of the United States cruiser Chicago arrested in Venice. It is from his son Frank, who is captain of the marines on the Chicago. The cablegram states that the sender had defended a brother officer from an attack by a mob and that there is no occasion for worry.

Rural Free Delivery.

Washington, May 5.—Rural free delivery will be established June 1 at Hopewell, Tazewell County, Ill.; Conway, Taylor County; Kellerton, Ringgold County, Iowa. Additional service will be given at Russellville, Howard County, Ind.

Names H. Clay Evans.

Washington, May 5.—The President has sent the nomination of H. Clay Evans, to be consul general at London, to the senate.

Phila Miners Strike.

Philadelphia, May 5.—Senator Hagerman apparently fears that a miners' strike is inevitable, although he will not say so in so many words. He admitted that the conciliation committee had failed in all efforts to bring about an agreement between operators and miners and that no further meetings would be held.

All the Life--All the Energy--All the Ambition Disappears When the Back Begins to Ache.

Doan's.... Kidney Pills.

CURE Sick Kidneys---Cure every Kidney Ill---Cure Kidney "bad backs." Ever have a bad back? A back that ached like a toothache? A back so lame and painful all day, so weak and played out at night, that life was one long drawn out misery? Any backache is bad enough, but Kidney backache has its danger and should never be neglected. Backache is the Kidney's warning. Neglect it and many serious troubles follow. Urinary disorders, Diabetes, Rheumatism, Bright's Disease. Profit in time by the experience of people you know. Here is the best of evidence.

Janesville Proof.

South Franklin St.

Mr. L. Lawrence, of 408 S. Franklin St., engineer at the Janesville Electric Light Co., says:

"Seven years ago I injured my back by falling through a bridge near Afton, into the Rock river. I was on a traction engine, its weight broke through, and the whole thing went into the stream. Since that time my back has ached by spells, sometimes very severely. If I caught cold it settled in my kidneys and if I brought a strain on my back lifting, the result was a bad backache and sharp twinges of pain in my loins. I procured Doan's Kidney Pills and after I used them I was free from backache. I am in better health than at any time since falling through the bridge."

: Locust St. :

Mr. Samuel Griffin, of 203 Locust St., journeyman carver, says: "I had a severe attack of la grippe and as a result weakness of the kidneys set in. The secretions from those organs were greatly disordered, annoyed me much at night and I seemed to have limited control of them. After finishing the treatment my kidneys were so strengthened that I could sleep all night without being disturbed. I am better now than I have been for years, and give all credit to Doan's Kidney Pills for bringing about this result."

Get what you ask for. GET DOAN'S. Don't accept something "just as good." Most druggists sell Doan's Kidney Pills and will give you what you call for. Some may endeavor to substitute an article they make more profit on. Insist on having the genuine. Price 50 cents. Manufactured by Foster-Milburn Co., Buffalo, N. Y.

WHISKEY

and

WINE.....

The question of purity is certainly the most important one in the wine and liquor business. It gets our exclusive attention. We buy with the utmost care and make ourselves certain in every case, that whatever comes into our store is of perfect purity, and that it goes to our customers just as it comes to us from the distillery or wine cellars.
